

RoHS Certificate of Compliance

Restriction of the use of certain Hazardous Substances (RoHS)

EC directive 2002/95/EC (**the RoHS Directive**) restricts the use of the hazardous substances listed below in electrical and electronic equipment.

Based on information provided by our suppliers Scene Double designates the products listed below as **RoHS compliant** for product manufactured on or after the date of this certificate.

RoHS compliant means that:

- Our products are manufactured using compliant materials, components and processes.
- Our suppliers have confirmed the compliance status of materials supplied and processes used.
- We have implemented processes to confirm and document this.
- We have introduced a marking on the packaging of all new compliant products in order to identify and segregate compliant stock.

Confirmation of compliance status by our suppliers and manufacturing facilities is implied because the products do not contain any of the restricted substances referred to in Article 4(1) of the RoHS Directive at concentrations in excess of those permitted under the RoHS Directive.

For these purposes, the maximum concentration values of the restricted substances by weight in homogenous materials are:

Lead 0.1% - Mercury 0.1% - Hexavalent Chromium 0.1% - Polybrominated Biphenyls 0.1% - Polybrominated Diphenyl Ethers 0.1% - Cadmium 0.01%

Scene Double Ltd. has taken reasonable steps to assess suppliers and manufacturing facilities regarding the absence of the restricted substances.

Product Range: SDLink, SDBX, SDMX, SDRK, SD-VUE Extender Series Products and Accessories (as listed overleaf)

Manufactured By: Scene Double Ltd, Vision House, Station Road, Borehamwood, WD6 1DE, UK

Place of Issue: Borehamwood, UK

Date of Issue: 19 June 2006

Signed:

Ray Gordon (Director)
